ABOUT ME

I am a 25-year-old web developer fascinated by crafting engaging online experiences. My journey into programming began in 2021, and since then, I immersed myself into web development. Building dynamic and responsive websites is one of my main strengths. Passionate about creating intuitive interfaces, I thrive on leveraging technologies like React.js for frontend development and Node.js for backend functionalities.

TECHNOLOGIES

- JavaScript
- Node.js
- SQL
- Redux
- React.js
- Express.js
- Git
- Tailwind

SOFT SKILLS

- Problem-solving
- Strategic Planning
- Adaptability
- Attention to detail

- Teamwork

PROJECTS

Front-End Developer at the *Pet Palace Project*

Academic Project • February - April 2024

- Actively participated in daily and weekly meetings, contributing to team organization and productivity.
- Played a key role in frontend development, including product rendering, implementing filters, and creating shopping cart orders to enhance the e-commerce user experience.
- Successfully integrated Auth0 for secure user authentication, ensuring data security and seamless access to application features.

Full-Stack Developer at the *Countries Project*

Academic Project • January 2024

- I developed this individual project utilizing the SERN stack (SQL, Express, React and Node).
- An intuitive Country Finder with a local database, using CRUD.
- Component-based and modular architecture for better understanding.
- Git version control management to ensure accurate project updates.

EDUCATION

Full Stack Developer

soyHenry • 2023 – April 2024

Front End Developing

Udemy • 2021–present

EXPERIENCE

Jr. Sales Agent

Contagram • Aug. 2019– Jul. 2020

My duties involved engaging with customers professionally, showcasing product knowledge and value propositions, while providing at the same time tailored solutions to customers and addressing enquiries to nurture relationships and maximize sales opportunities. The position also involved conducting thorough evaluations of client profiles to identify sales opportunities, tailoring strategies accordingly, and diligently maintaining customer information and sales activities in the CRM system.

LANGUAGE

Proficient English (C2) Native Spanish
