About Me

Web developer specializing in building responsive applications with React.js and Node.js. Passionate about problem-solving, teamwork, and crafting seamless user experiences. My relocation to Europe has strengthened my adaptability and ability to collaborate in diverse environments.

Experience

Dunno | Full-Stack Developer

Nov 2023 – Present

Develop and maintain full-stack web applications using JavaScript/TypeScript, React/Next.js, and Tailwind CSS on the frontend, with Node.js, Express.js, and PostgreSQL on the backend. Focus on building scalable, efficient solutions while collaborating with an agency to deliver high-quality projects.

Riml Sports | Rental Staff

Nov 2024 – Apr 2025

Assist customers in selecting and fitting ski equipment in a fast-paced, customer-facing environment. Handle sales transactions, provide product recommendations, and ensure excellent customer service. Manage high-pressure situations while collaborating with teammates and coordinating with other shops to meet customer needs. Continuously improve German language skills through daily interactions with international customers, strengthening communication in a multilingual setting.

Projects

Pet Palace | Front-End Developer
