About Me

Full-stack web developer specializing in building scalable, responsive applications with React.js and Node.js. Passionate about problem-solving, effective communication, and collaboration to deliver seamless user experiences. Relocated to Europe, enhancing my adaptability and ability to work efficiently within diverse, Agile teams. Holding an EU passport, I am authorized to work freely across Europe.

Experience

Dunno | Full-Stack Developer

Nov 2023 – Nov 2024

Designed, developed, and maintained full-stack web applications using JavaScript, TypeScript, React.js, Next.js, and Tailwind CSS on the frontend, and Node.js, Express.js, and PostgreSQL on the backend. Built responsive Single Page Applications (SPAs) and integrated scalable RESTful APIs. Collaborated with cross-functional teams and digital agencies in Agile sprints, contributing to code reviews, CI/CD pipelines, and continuous product improvements across MVP and production environments.

plannet.cc | Full-Stack Developer

Aug 2022 – Oct 2023

Delivered full-stack solutions with a focus on clean architecture, scalability, and maintainability. Developed dynamic frontends using React.js and TypeScript and built RESTful backend services with Node.js and Express. Engaged directly with clients, designers, and developers to align business goals with technical execution. Actively participated in Agile ceremonies, sprint planning, and iterative product development, improving release velocity and end-user satisfaction.

plannet.cc | Frontend Developer

Oct 2021 – Aug 2022

Created interactive, mobile-responsive Single Page Applications (SPAs) and Minimum Viable Products (MVPs) using React.js, TypeScript, and Tailwind CSS. Translated Figma designs into performant web interfaces, ensuring pixel-perfect execution and seamless UX. Integrated frontend components with backend microservices and APIs to deliver real-time, data-driven user experiences. Contributed to early-stage product iterations and client feedback loops in a fast-paced, Agile environment.

Technical Skills

Languages & Technologies: JavaScript (ES6+), TypeScript, HTML5/CSS3, Node.js, JSON, Bash/Shell, JSX/TSX.

Skills & Concepts: Artificial Intelligence, Prompt Engineering, React Router, Agile Methodology, Scrum, CI/CD, Test-Driven Development (TDD), Authentication & Authorization (OAuth2, JWT), Containerization (Docker), SEO Optimization, Version Control, Blockchain, web3, Pull Requests, DOM.

Tools & Frameworks: React.js, Next.js, Express.js, RESTful APIs, Tailwind CSS, Bootstrap, Hero UI, Sequelize ORM, Jest, Git, GitHub, Docker, Vercel, npm, Vite, Webpack, OpenAI, Jira, Trello, Notion, Slack, Visual Studio Code, Cursor, Figma, Redux.

Languages: Fluent in English, Native Spanish and Basic German.
